

# Python ka Chilla with baba\_Aammar

## How to use jupyter Note Book

## Basics of Python

### 01- My first program

```
In [4]: print(2+3)
        print("Hello World")
        print("we are learning Python with Aammar")
```

```
5
Hello World
we are learning Python with Aammar
```

### 02- operators

```
In [5]: print(3-1)
        print(2+1)
        print(6/2)
        print(2*3)
        print(13%2)
        print(6//2)
        print(2**3)
        print(3**2/2*3/3+6-4)
```

```
2
3
3.0
6
1
3
8
6.5
```

\*PEMDAS Parenthesis Exponents Multiply Divide Addition Substraction left to right sequence for M D & A S

### 03- strings

```
In [6]: print("Hello world")
        print("We are learning Python with Aammar")
        print('Test for single qoutes')
        print("test for double qoutes")
        print(''''test for triple qoutes''')
        print( "  what's up  ?" )
```

```
Hello world
We are learning Python with Aammar
Test for single qoutes
```

```
test for double quotes  
test for triple quotes  
what's up ?
```

## 04- comments ion python

The shortcut key to comments is **Ctrl+/**

In [7]:

```
print("how are you?") #press these to comment out (Ctrl+/)  
print("we are learning python with Aammar") #print a string  
  
print(2+6) # print operators function with numbers
```

```
how are you?  
we are learning python with Aammar  
8
```
